## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Drawings***

2. The drawings were received on 7/7/04. These drawings are acceptable.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 11-20 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Connell et al (5,537,155) for the same reasons as set forth in Section 9 of the last office action, dated 4/7/04.

### ***Response to Arguments***

5. Applicant's arguments filed 7/7/04 have been fully considered but they are not persuasive. On page 8 of the Remarks, applicant agrees that O'Connell et al discloses that different blocks of different step widths are used as search areas. Yet, applicant asserts on page 9 of the Remarks that O'Connell et al fails to disclose the search areas are being varied as a function of picture quality. Since it is well known in the art that different quantization steps widths produce different picture quality, it is submitted that

Art Unit: 2613

the search blocks used in motion estimation are being encoded differently according to picture quality (e.g. step width), as required by applicant's claims 11 and 16.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
